---

Mom is eating much much better, 3 meals + ensure, getting stronger, blood pressure good, but still a little confused sometimes. Hopefully that will diminish when she gets back in a place of her own. We think she'll do ok with just Assisted Living and having PT/OT come to her new apartment for awhile. There is a place that seems OK and is right across the street from my work so we reserved a 1 bedroom apartment there (Vista del Rio).

Diane has been doing a wonderful job of managing Mom's rehab and getting all the medical records, etc ready to move to Albuquerque. She flies back to Mexico on Tuesday to get a little work done and then fly with Aminta, Mia, Ella and now Juan back to Phoenix/Tucson on Monday 26th. I'll go back to Tucson for a few days this Thursday to Sunday so Mom won't be alone for too long and get some of the papers packed up. Mom will be discharged on Tuesday, 27th, stay at Broadway Proper that night, and fly with Diane to Albuquerque on the 28th. She can stay at one of the studios at Vista del Rio until Diane and Juan pack up and drive her stuff over on the weekend. Then we'll get her settled into Atria Vista del Rio, Apt 221, 1620 Indian School Rd NE, Albuquerque NM 87102.

Thanks to Charles and Mickey (who got us connected with Mickey's doctor and gave us a reference), she has an appointment with a doctor here in Albuquerque on the 2nd of April. I'm looking forward to having her here. It'll be an adjustment for her, but she'll feel safer without one of us having to fly in when she needs us.

love,  
Susan
