---

Brandy says she talked to her mother and got this info:

Brett Garrett's mom was Dorothy Gibson.

his Father was a Garrett but neither brandy's mom or her half-aunts remember. They were never married.

After brent was born Dorothy also had kids with Joe (last name unknown). Their names are Ozella "Boo" Gibson and Danetta Gibson. Ozella youngest. One other sister with Joe between Brent and Danetta.

also a brother (via Joe) named Alan. Younger than all the sisters. In mid 40s with son Marcus.

Ozella has kid Kia (last name unknown). Kia in late 20s.

Danetta has son Damon. Last name unknown. Damon is late 20s. Also has child. Name unknown.

Dorothy died of a stroke around Christmas after Brandy was born. Her dauhters say it was related to a mugging.

Brandy has Brent's birth certificate "somewhere".

Brent was in army.

"Good chunk" of american indian ancestry of Dorothy.

All lived in Philadelphia.

Brent had uncle albert. (mothers brother). Albert would complain about "damn Jamacians" only to discover some of his ancestors were also from there.

There is another relative inez who died in 2006 who was the "family matriarch". Brandy does not know exact relation. Will ask her mom. Inez physically looked American indian.

Brandy thinks Dorothy was perhaps as much as half American Indian.
